(1) whether the appeals which were preferred before the revised rules came into force and which have not yet been disposed of should be dealt with by the appeal committee as constituted under the old rules or by the new appeal committee constituted under revised rule 8;

(2) whether the new appeal committee should be formed only in January 1925 as provided in revised rule 8 (*a*) or should be formed forthwith for the current year.

2. As regards the first question, the Government are advised that the appeals of all municipal subordinates irrespective of when they were preferred should be dealt with by the new committee formed under rule 8 of the rules, as amended by Notification No. 68, dated 28th January 1924.

3. As regards the second question, chairmen are informed that every effort should be made to constitute the new committee as early as possible in the current year in all those municipalities where the committee has not yet been formed. From 1926 onwards, the committee should be constituted by the date fixed in rule 9 (*a*).

*Fort St. George, June 4, 1924 (G.O. No. 1477, L. & M.).*

No. 828.—The following Resolution of the Board of Revenue, No. 855, dated 10th April 1924, is communicated to all local bodies for information :—

B.P. Mis. No. 855, LAND REVENUE AND SETTLEMENT, DATED 10TH APRIL 1924.

*Read*—the following papers :—

B.P. Mis. No. 1079, dated 23rd June 1922.

B.P. Mis. No. 1484, dated 14th August 1922.

B.P. Mis. No. 611, dated 1st March 1923.

*Resolution—Mis. No. 855, dated 10th April 1924.*

In the three Board's Proceedings read above, the Board has already issued instructions to Collectors regarding the treatment of encroachments on lands vested in local bodies. The gist of the orders is that since the local bodies have adequate powers to deal with encroachments on lands vested in them, the Revenue Department should not interfere unless the neglect of the local bodies has rendered such lands useless for the purpose for which they were originally dedicated. From correspondence between Collectors and local bodies that has come in its notice, the Board observes that local bodies have not fully realized their responsibilities in this matter. Thus, the president of one district board desiring to be relieved of all responsibility asks for the same amount of help as the Revenue Department was rendering before the new Local Boards Act (XIV of 1920) came into force, while the president of another district board asks for the co-operation of the Revenue Department only in so far as relates to the detection and reporting of encroachments. It may be observed that the Board's orders do not contemplate the entire removal of responsibility from the karnams and other revenue officers. They will continue to detect and report encroachments on local fund properties. The objections is only to the Revenue Department dealing with such encroachments after detection and report. To remove any misapprehension that may exist, the following further instructions are now issued with the approval of Government.

2. The encroachments on properties vesting in local bodies fall under the following three classes :—

(1) those in which local bodies have used all their powers under the law and failed,

(2) those in which local bodies desire to take action but find themselves unable to do so for want of definite information, e.g., where the boundary is not demarcated,

(3) those which either owing to the indifference or apathy of local bodies, escape detection at their hands.

As regards class (1) orders have already issued in G.O. No. 1177, L. & M., dated 25th May 1923, communicated with B.P. Mis. No. 1407, dated 23rd June 1923, to the effect that the Revenue Department should be called upon to act *only* when the local board has used its powers under the Madras Local Boards Act, 1920, and failed owing to lapse of thirty years.

As regards class (2), the Revenue Department should render assistance to local bodies when the latter apply for it. This assistance should, however, be limited to that which the karnams can readily give in identifying boundaries and producing in the village, plans and accounts for the reference of officers of the Local Fund Department when they inspect and report on the encroachments.

There remains class (3). The Board's previous orders are not intended to over-ride the provisions of Board's Standing Order No. 28, paragraph 10, and paragraph 4 at page 83 of the Village Officer's Manual (1918 edition). The village officers will continue to detect and report such encroachments but as in the case of class (2), any further assistance they are to render should be confined to producing the records in the village for the use of the Local Fund officers. When an encroachment has been detected and reported, it is a comparatively simple matter for the local fund officers to prepare sketches and report on the encroachments.

3. The Board observes that many Revenue officers also do not understand the position and are still taking steps to remove encroachments themselves, instead of leaving it to the local bodies to do so. Government are sometimes thus involved in unnecessary litigation. Revenue officers should study the revised instructions on the subject and follow them carefully.

ANNEXURES.

*Proceedings of the Board of Revenue (Land Revenue and Settlement), Mis. No. 1079, dated the 23rd June 1922.*

*Resolution—Mis. No. 1079, dated the 23rd June 1922.*

[Encroachments (Godavari)—Roads and poramboke—Treatment—Responsibility of local bodies—Instructions issued.]

The Board is of opinion that it is not the duty of the Revenue Department to deal with encroachments upon roads and poramboke. The control of these lands is vested in the Local Boards and there is no reason why the Revenue Department should undertake in the ordinary course any work in connexion with them. In many cases action taken against encroachments of this kind results in a suit and if the Revenue Department is to usurp the functions of the Local Board and to take action under the Land Encroachment Act, the suit that is filed will be filed against Government and Government will have the trouble of fighting it and will as a consequence incur considerable expense. The great increase in the cost of Revenue administration is largely due to the fact that

the Revenue Department is required to do work which forms no part of its proper duties and this matter of dealing with encroachments on public roads, the control over which is vested in the Local Boards, is merely another instance of this.

2. In the opinion of the Board these encroachments should be dealt with by the local bodies. The requisite power has been given to them by sections 159 (1) and 207 of the Local Boards Act. The members of the Legislative Council from their experience of local administration appear to have considered the provisions of these two sections to be an adequate weapon in the hands of the local bodies for dealing with these cases and if any local body is of the opinion that the power so conferred is inadequate when compared with section 98 (a) of the old Act, it is for that body to move Government for a suitable amendment of the Act.

3. It is only when the neglect of the Local Board has rendered such lands useless for the purpose for which they were originally dedicated that the Revenue Department should step in to assert the reversionary rights of the State to them, and this in the opinion of the Board may most conveniently be done at a general resettlement unless some particular reason arises in the meantime for wanting them.

[Encroachment—Streets and ponds—Vested in local bodies and municipalities—Action under Act III of 1905—Instructions issued.]

The Board has noticed that it is a common practice on the part of District Municipalities and other local bodies to apply to the Revenue Department when encroachments are made upon roads, streets and ponds, and ask that action should be taken by that department under the Land Encroachment Act.

2. The control of such roads, streets, etc., as however vested in these bodies and sections 182 and 313 of the District Municipalities Act (V of 1920), and sections 159 (1) and 207 of the local boards Act (XIV of 1920) have given all local bodies the necessary power to deal with encroachments upon them. So long as the land in question is vested in the municipality or other local body, the Collector cannot intervene. If the land is required for the public purpose for which it was dedicated, it is for the local body to take action. If the local body considers that the land is no longer required for the purpose, the proper course is for the local body to formally relinquish it to the Revenue Department which can then deal with it according to the rules. In future if a municipality or local board requests the Revenue Department to remove an encroachment by the application of the Land Encroachment Act, the request should be refused.

[Encroachments—Public roads—Treatment—Further instructions issued.]

With reference to the instructions issued in B.Pc. Mis. No. 1076, dated 23rd June 1922 and No. 2089, dated 26th October 1922, regarding the treatment of encroachments on public roads the Collectors of Kurnool and Guntur have raised the following questions :—

(1) Section 3 (18) of the Madras Local Boards Act No. XIV of 1920 defines 'public road' as including all kinds of roads, wherever they are situated, provided the public have a right of way over them and section 60 of the same Act vests all 'public roads' in local boards. If this is so, in view of the instructions in the Board's Proceedings just quoted, should not paragraph II of Board's Standing Order No. 26 which presumes the existence of some public roads which do not vest in local boards be revised ?

(2) Encroachments on public roads in rural areas are generally by cultivation. If the Revenue Department is to ignore them, will it not mean loss of revenue in the shape of assessment and water-rate ?

(3) Do the instructions in the Board's Proceedings above referred to cover also encroachments on drinking water ponds vested in local boards ?

(4) Is it desirable that local boards should be left to deal with the encroachments on public roads and can they discharge this responsibility efficiently ?

2. These points are dealt with below :—

(1) The Board observes that under section 18 of the General Clauses Act I of 1891 when an Act is re-enacted, notifications published under the old Act are to be deemed, so far as they are consistent with the provisions of the new Act, to have been published under the new Act. Notifications have been published for each district under section 46 of Act V of 1884 excluding certain roads from the control of local boards. These notifications are not inconsistent with the provisions of section 60 (3) of Act XIV of 1920 and have not been cancelled. The public roads so excluded will therefore continue to remain under the control of the Revenue Department. Board's Standing Order No. 24-11 does not, therefore, require revision.

(2) The Board apprehends no material loss of revenue by the absence of control through the Revenue Department over public roads not excluded from the operation of the Local Boards Act.

(3) The Board desires that the instructions issued in the Board's Proceedings under reference should be applied also to drinking-water ponds vested in local boards.

(4) The Board is unable to modify the orders already issued. The Revenue Department of Government cannot take on itself the superintendence of functions which are outside its sphere and should step in only in the circumstances stated in paragraph 3 of B.P. Mis. No. 2070, dated 23rd June 1922.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATIONS TO BE HELD IN SEPTEMBER AND OCTOBER 1924.

Candidates for University Examinations are required to observe the following instructions very carefully:—

1. Strict silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious disease of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so, their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, manuscript or paper of any description, from communicating with or copying from each other, and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be sent out of the room forthwith, and his conduct will be reported to the Registrar. The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in groups (5) and (ii) of the Intermediate, B.A., B.Sc. (Ag.) and B.Sc. Degree examinations.

9. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink-bottles. They must, however, use only black ink while answering their question papers.

10. Particular attention is requested to the instructions regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Papers must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

11. As soon as candidates have finished writing their answers and wish to give up their answer books or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has come up to him and has received his answer book from him.

12. Communications to the Registrar from candidates requesting information relating to the results of examinations will not receive attention until after the publication of the results in the *Fort St. George Gazette*. Success or failure, however, will be communicated by telegraph, if prepaid.

The hall tickets of candidates sitting for the examinations at Madras will be ready for distribution at the Senate House four days before the date of each examination. Candidates sitting for the examinations at centres other than Madras should apply to the Chief Superintendent of the respective centre for their hall tickets.
